

ANNUAL RESEARCH JOURNAL

Published By :
NMAM Institute of Technology
Frequency: 1 Issue per year
Print ISSN: 2249-0426

AIM AND SCOPE

The “Annual Research Journal” is published by NMAM Institute of Technology, Nitte, with the aim to provide an appropriate platform for presenting original research papers, and short communications under different engineering disciplines and management science. The some of the topics covered in the earlier issues are:

- Character Segmentation
- Switching Technique
- Digital Water marking
- Optical properties of Crystals
- Modelling using FEM
- Distance Vector Routing Protocol
- Fault Diagnosis
- Radio protective Efficacy of Plant Extracts
- Multi core Interactive Framework
- Shape Memory Alloy

Volume : 02
Frequency: 1 issue per year
Print ISSN: 2249-0426

MEMBERS OF EDITORIAL BOARD

EDITOR-IN-CHEIF

Dr. S.Y Kulkarni, NMAM Institute of Technology, Nitte

EDITOR

Dr. Sudesh Bekal, Dean(R&D),NMAM Institute of Technology, Nitte

EDITORIAL BOARD

Dr.Nirajnan N Chiplunkar,NMAM Institute of Technology, Nitte
Dr.N.S.Sriram, Vidya Vikas College of Engg., Mysore
Dr.Uday Kumar, NMAM Institute of Technology, Nitte
Dr.Vaman Rao, NMAM Institute of Technology, Nitte
Dr.Subramanya Bhat K, NMAM Institute of Technology, Nitte
Dr.Yuvaraju B.N, NMAM Institute of Technology, Nitte
Dr.Shashirekha Rai, NMAM Institute of Technology, Nitte
Dr.Seetharam Shettigar, NMAM Institute of Technology, Nitte
Dr.Janardan Nayak, NMAM Institute of Technology, Nitte
Dr.Ashok Babu T P, NITK Suratkal
Dr.Udaya Kumar Shenoy, NMAM Institute of Technology, Nitte
Dr.Jaganath Nayak, NITK, Suratkal
Dr.Shridhara S, IITB, Mumbai
Dr.KVV Murthy, IIT,Gandhinagar
Dr.Navakanth Bhat, IISC, Bangalore
Dr.Gopalakrishna Kini, MIT,Manipal

ANNUAL RESEARCH JOURNAL

Published By :
NMAM Institute of Technology
Frequency: 1 issue per year
Print ISSN: 2249-0426

GUIDELINES FOR AUTHORS

The contributors are expected to highlight their research work with sufficient details & discussion of results.

The original research paper should be limited to 6 and short communication to 3 printed pages of the journal in double column standard IEEE format. Please refer to IEEE website for the standard format.

Manuscripts must be submitted in both hard and soft copy (in a CD) to the Editor-in-Chief, Annual Research Journal, NMAM Institute of Technology, Nitte-574110, Udupi District, Karnataka.

Enough precaution should be taken to make the manuscript error free.

The papers that are not in the standard format may be rejected

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out.

Authors of the selected papers have to send the final camera ready paper (both in MS Word & PDF) for final print

After the review process, the selected papers will be published in the Journal.

GUIDELINES FOR AUTHORS

Article structure

Subdivision - numbered sections

Divide your article into clearly defined and numbered sections. Subsections should be numbered 1.1 (then 1.1.1, 1.1.2, ...), 1.2, etc. (the abstract is not included in section numbering). Use this numbering also for internal cross-referencing: do not just refer to 'the text'. Any subsection may be given a brief heading. Each heading should appear on its own separate line.

Introduction

State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results.

Material and methods

Provide sufficient detail to allow the work to be reproduced. Methods already published should be indicated by a reference: only relevant modifications should be described.

Theory/calculation

A Theory section should extend, not repeat, the background to the article already dealt with in the Introduction and lay the foundation for further work. In contrast, a Calculation section represents a practical development from a theoretical basis.

Results

Results should be clear and concise.

Discussion

This should explore the significance of the results of the work, not repeat them. A combined Results and Discussion section is often appropriate. Avoid extensive citations and discussion of published literature.

Conclusion

The main conclusions of the study may be presented in a short Conclusions section, which may stand alone or form a subsection of a Discussion or Results and Discussion section.

Appendices

If there is more than one appendix, they should be identified as A, B, etc. Formulae and equations in appendices should be given separate numbering: Eq. (A.1), Eq. (A.2), etc.; in a subsequent appendix, Eq. (B.1) and so on. Similarly for tables and figures: Table A.1; Fig. A.1, etc.
